BELMONT TRYING TO SATISFY EVERYBODY

Is in Hard Fix and May Have to Buy Track and Shut It Up.

(Special to The Times-Dispatch.)  
NEW YORK, Feb. 11.—Belmont, chairman of the Jockey Club and State Racing Commission, is losing sleep trying to arrange a schedule of dates for the Metropolitan racing season which will please all associations and at the same time suit interests of the track.

In the ordinary course of events, the season would begin at the Belmont Belmington track, probably not more than a month. With the identified New York City Club chambering for dates at Morris Park and the Empire City Club with a double-headed charter demand, and several other minor clubs, Mr. Belmont finds himself in an exquisitely dangerous position.

It has been rumored that Mr. Belmont is gradually gaining control of the Metropolitan Jockey Club stock. This would, of course, mean the shutting up of the Jamaica track, and would, if possible, end the Morris Park races, an objectionable course because of its peculiar crude shape, would be removed. It might be cheaper to buy off the New York Jockey Club than to race at the end about.

In the meantime, Mr. Belmont is keeping quiet. No hint of his hand in the Jockey Club council is coming from the official press agent. Meanwhile, owners, trainers and the public are at a stand-still, and the most popular plan seems to be that they may arrange their training accordingly.

Race With Hamburg for Kaiser's Cup Is Expensive Affair.

(By Associated Press.)

BERLIN, Feb. 11.—The syndicate owning the German yacht Hamburg, entered for the transatlantic race, has arranged to send her in tow of the Hamburg-American liner, the Europa. For the Atlantic, from which the yacht will proceed by way of St. Thomas to New York.

The yacht, one of her owners, his son, Lieutenant Tietjen, of the German navy, and Captain Peters will go with the Hamburg across the Atlantic. It is estimated that the expense of running the Hamburg for Emperor William's cup will be about

£10,000.

It seems that in order to make the already enormous sum available, the Hamburg will have to run a race track, shut it up, and even then have racing in opposition to Hamburg. Any opposition to Hamburg would be only a trifling matter, as the New Empire Club was made to accept date corresponding to Hamburg.
